DETAILED ACTION

Priority

1. Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the "lifting platform" must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3652

4. Claims 1-5 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by DE 3916048

A1.

DE '048 discloses an operating device comprising a housing, Figs. 1 & 2, configured to be arranged in a sunken manner in the floor, the housing includes a cover, a plurality of operating elements disposed in the cover and formed as a foot switch. See Figures 1 & 2, and abstract.

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claims 1-9 are rejected under 35 U.S.C. 103(a) as being unpatentable over DE 3152422

A1 (DE '422) in view of EP 960770 A1 (EP '770).

DE '422 discloses an operating device comprising a plurality of housing, Figs 4 & 5, configured to be arranged in a sunken manner in a floor 23, the housing including a cover 30, an operating elements disposed in the cover and formed as a foot switch, and the upper side of the cover is configured to be aligned with the level of the floor.

DE '422 discloses a separate housing for each operating element.

EP '770 discloses a foot operating device comprising a housing having a plurality of operating elements disposed in the cover and a display device 9 for providing a display in accordance with predetermined operating states.

Art Unit: 3652

It would have been obvious to one having ordinary skill in the art at the time the invention was made to have employed a housing comprised a plurality of operating elements for the operating device of DE '422 reference in order to simplify the design as well as maintenance.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Each of the cited references separately discloses a foot switch device for operating a lift.

8. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thuy v. Tran whose telephone number is (703) 308-2558.
